

## Futsal Goal assembly instructions

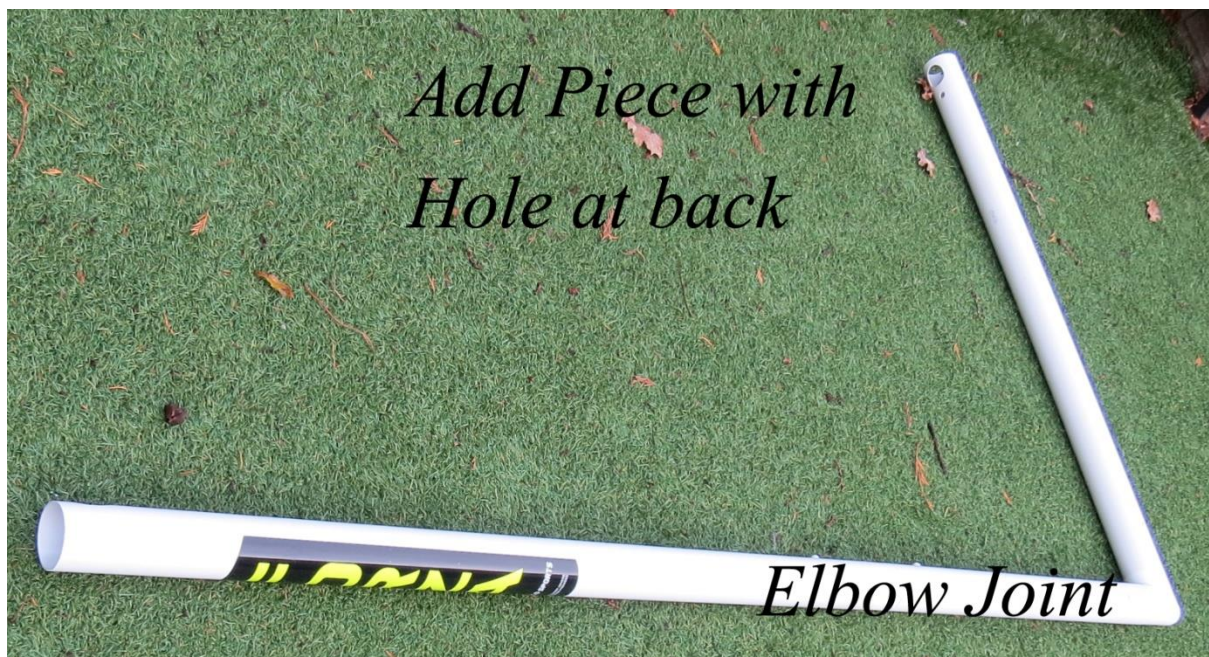

### Step 1 Identify Goal post parts

Lower goal post part is the longer of the two short pieces. Note one end has two holes and the other on hole. Using a straight connector the one hole end to the lower part of goal post.

### Step 2 Add long piece with hole at rear.

Use a 90 degree connector at the bottom of goal post to add long piece with hole at on end so the the hole is opposite the goal post.

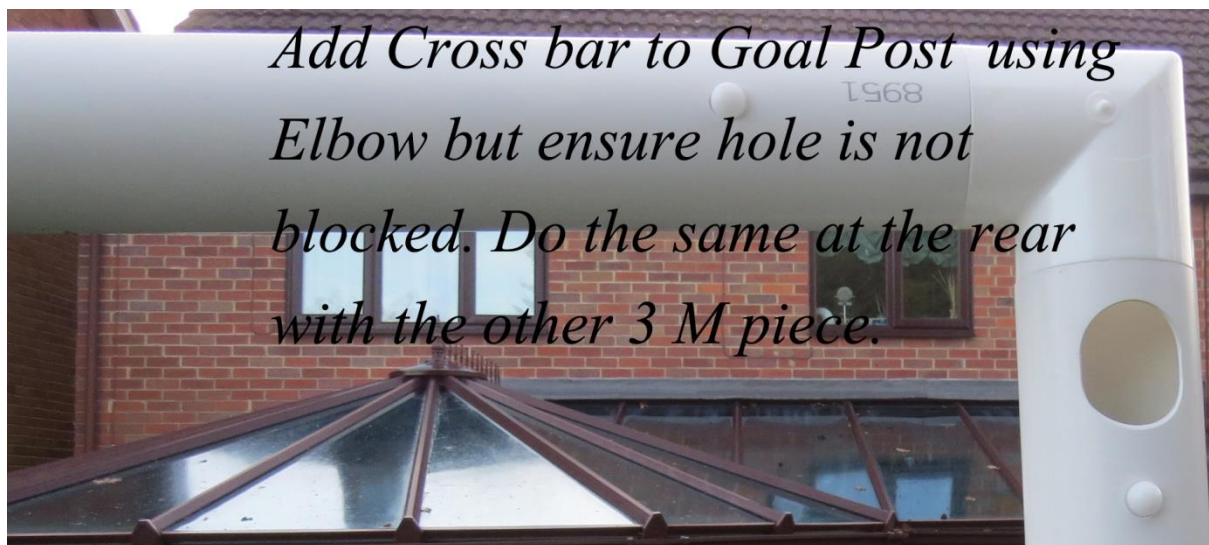

### Step 3 Assemble crossbar and rear piece

Using two straight connectors, assemble the short piece to the two remaining long pieces. Repeat so the you have two 3M long pieces.

### Step 4 Assemble goal

Using 90 degree connectors assemble goal, making sure that the 90 degree piece aligns with the hole at top of post and at rear.

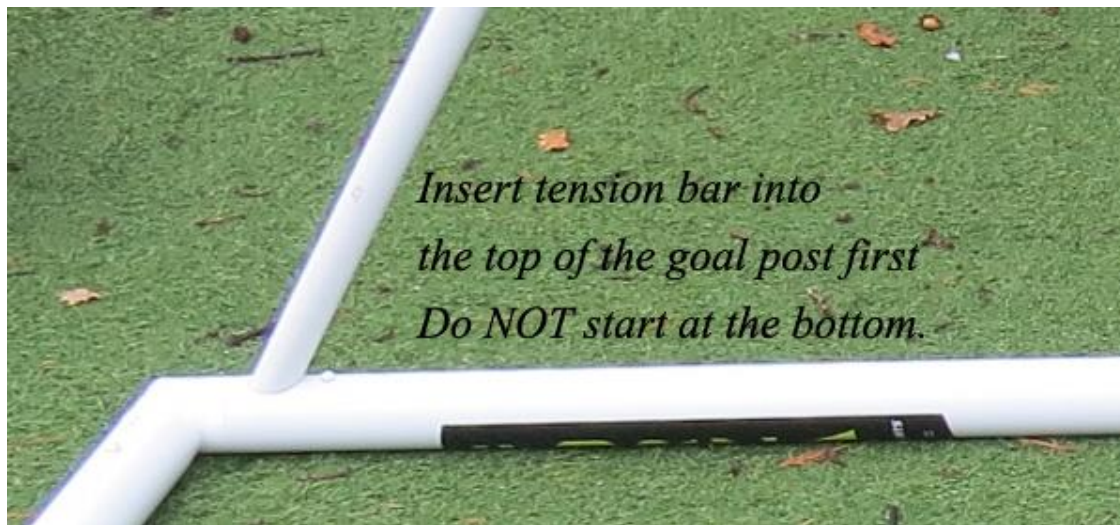

### Step 5 Assemble two tension bars.

## Step 6 Insert tension bar at top of goal post

## Step 7 Insert tension bar at bottom of goal

## Step 8 Attach the net
